

Kaggle competition: Instructions for joining the in-class competition

Computer Vision (H02A5a)

This document describes how students can participate in the in-class Kaggle competition organized by the Teaching Assistants (TAs) for the KU Leuven course *Computer Vision H02A5a*.

1 Overview

1. Complete the prerequisites (Sec. [2.1](#))
2. Join the competition (Sec. [2.2](#))
3. Set up your Kaggle team with the template notebook (Sec. [2.3](#))
4. Code and version your team notebook (Sec. [2.4](#))
5. Submit your results (Sec. [2.5](#))

2 Instructions

2.1 Complete the prerequisites

1. Create a Kaggle account (if you don't have one yet, note that new users have to pass a few verification steps before all functions in Kaggle work).
2. Find the URL of the in-class Kaggle competition in the assignment on Toledo.
3. Download the template notebook from Toledo.
4. Change the "X" in the name to your actual group number.

2.2 Join the competition

Every group member should log in to [Kaggle](#), browse to the competition website and join the competition.

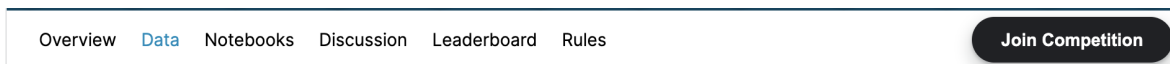

Figure 1: Look for this button to join the competition.

2.3 Set up your Kaggle team with the template notebook

Per group, **one person** will perform the following start-up steps:

1. Create a team using the designated group name found on Toledo.

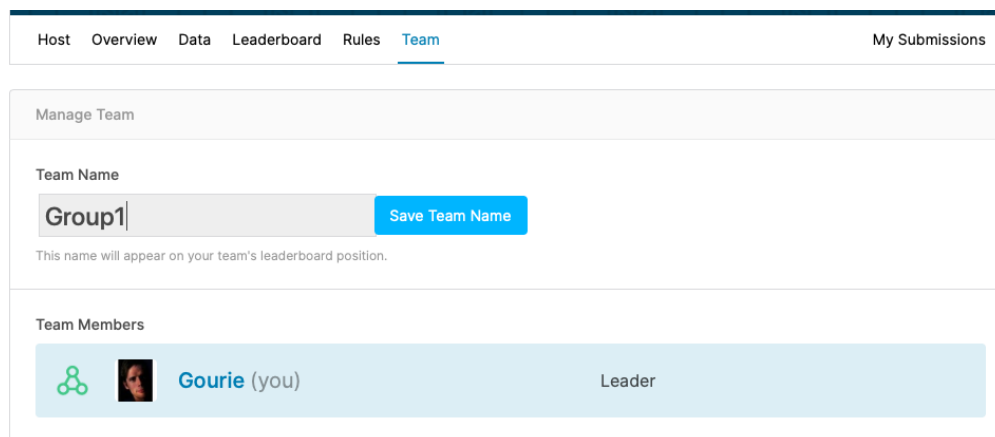

Figure 2: Create a team with the name given on Toledo.

2. Import the template notebook and share it with all group members and the TAs.
 - (a) Create a new notebook

Figure 3: Look for the button *New Notebook*.

- (b) *Select File > Open Notebook* to upload the template notebook that you downloaded from Toledo.

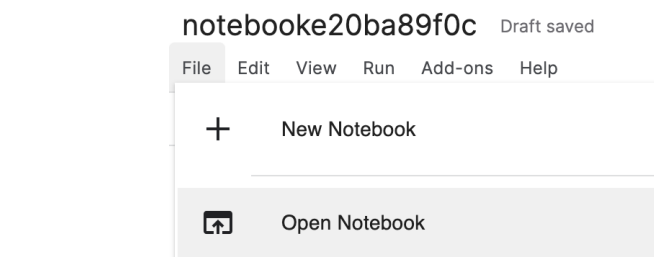

Figure 4: Select *Open Notebook* from the drop-down menu.

- (c) Once the template notebook has been loaded, if necessary, change the "X" in the notebook name to your actual group number. Then save a first version.

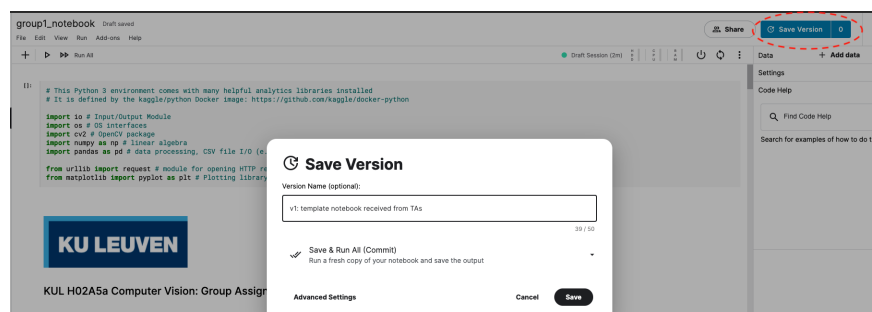

Figure 5: Save a first version.

- (d) Share this notebook in **writer mode** with all the group members

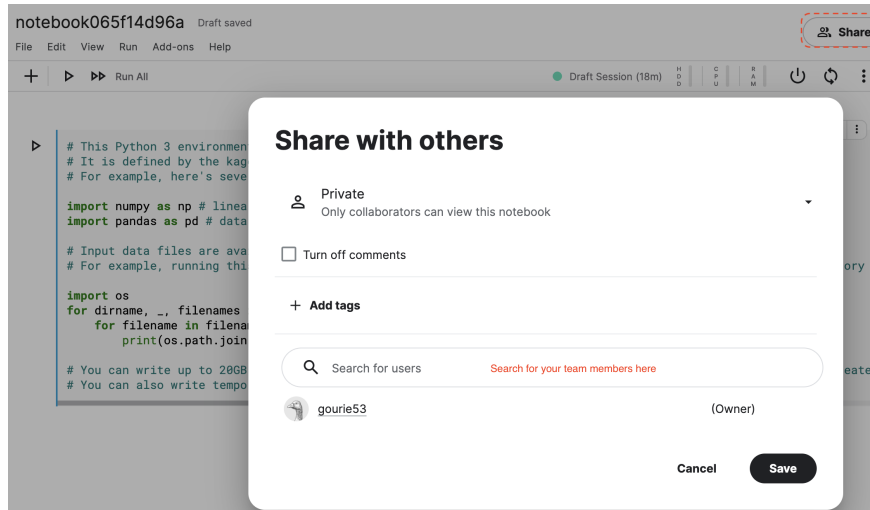

Figure 6: Share the notebook with your team members. Make sure they have write permissions.

- (e) Share the group notebook in **reader mode** with all the TAs to allow grading your submission for this course project. You can find their Kaggle usernames on Toledo under *Content > Information > Didactic Team*.

2.4 Code and version your team notebook

Now that your team has been set up, you can really get started with the assignment. The person that completed the set-up in Sec. 2.3 will find the notebook in the *Code/Your Work* section, as shown in Fig. 7. For the other group members, the team notebook will appear under the *Code/Shared With You* section, as shown in Fig. 8

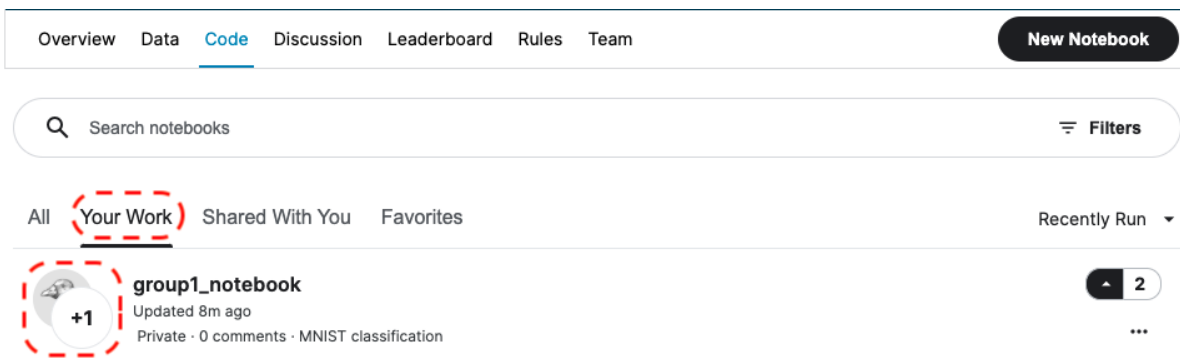

Figure 7: Notebook location for the owner.

All group members can now start working on this team notebook. Each group member should save his/her work in new versions of the notebook. You are free to manage these versions as you like (possibly outside Kaggle), but please make sure to provide your final notebook in the expected format yielding the expected outputs for submission.

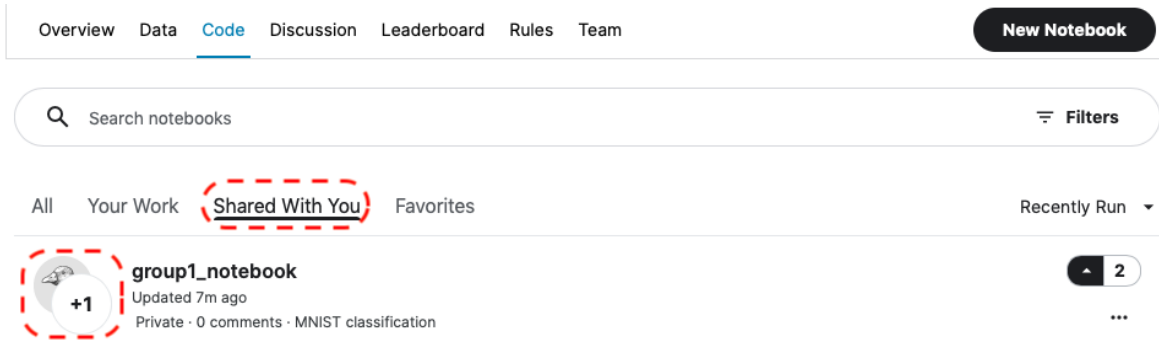

Figure 8: Notebook location for the team members.

2.5 Submit results

Once you are ready, you can submit (intermediate) results to get a score on the Public Leaderboard. To submit, you should open your notebook and then select *Submit to Competition* behind the “...” next to the Edit button:

Note that the TAs will grade your latest notebook prior to the deadline which resulted in a successful submission. Please make sure that this notebook contains your best and final results!

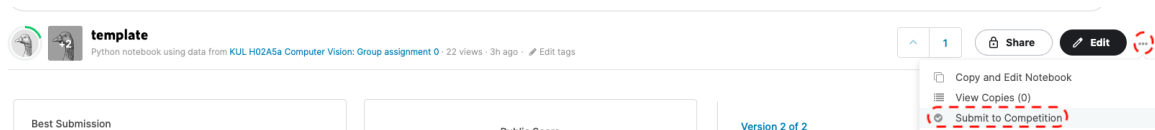

Figure 9: Select *Submit to Competition* from the drop-down menu.

Questions?

Please contact your TAs on Toledo.
